Moving to Alta

- New skin
- Layout and Icon changes
- Mobile (tablet) first
- Not just skin, but new UI Philosophy
 - Glance, scan and commit
 - <u>https://www.youtube.com/watch?v=SqaKT1fGdR0</u>
- Adopt gradually over time

Glance

• Look for any important tasks or notification (Springboard)

Scan

• Search with results table for more detailed analysis

- Additional filtering option for timeframe and applications
- Charts for Success percentage and duration

- Filtered data for using Sunburst
- Chart color matches selected piece of Sunburst

• Second level filter inside Sunburst component

• Additional filter for timeframe.

Same filter mechanism being extended for other charts, with additional filters

• Reused in context of single entity, so part of filtering is inherently specified

• More reuse
